PEACHES:

PAY BIG PROFITS QUICKLY!

A Peach to Every Taste and Purpose.

Very few fruits enjoy such a general popularity as do peaches. They combine delicious flavor, attractive appearance, and health giving food value. For many years it has been the popular opinion that peaches would thrive in only certain sections of the country. We know better now. It has been shown that this fruit can be grown at a good profit in every state in the Union. Peaches can be grown on any soil that will produce the average yield of farm crops. Peaches do well in the back yard and furnish as much shade and are equally as attractive as the ordinary ornamental tree.

Listed on these pages you will find all the most profitable varieties of peaches now grown for home or commercial purposes. Peach trees should be planted 16 feet apart each way.
